CHRISTIAN LOUBOUTIN

Christian
Louboutin

Founded in Paris in 1991, Christian Louboutin began with a women's shoe collection, followed a few years later by men's designs, both instantly recognizable by the iconic red lacquered sole. In 2014, the Maison expanded into beauty with the launch of Christian Louboutin Beauty, and in 2024 further extended its universe with the introduction of eyewear. The Maison's latest boutique concept, Le Voilier sur le Nil, unveiled in Abu Dhabi, draws inspiration from Christian Louboutin's Middle Eastern heritage, evoking the warmth and intimacy of a Mediterranean home. Conceived as a space of hospitality and connection, it seamlessly blends French luxury with regional conviviality inviting guests to explore, linger, and feel truly at home.

CARTIER

Cartier has a longstanding relationship with the UAE, dating back to 1912 when Jacques Cartier, the grandson of Cartier's founder, visited the Gulf to look for extraordinary pearls. He came back with much more: friendships, memories of great moments shared with local people and multiple sources of inspirations, which strongly influenced the creativity of Cartier's collections. The relationship between Cartier and people from the UAE has constantly grown and strengthened.

BRUNELLO CUCINELLI

The new Brunello Cucinelli boutique at The Galleria in Abu Dhabi stands out for its design, which blends the spirit of the Solomeo brand with the distinctive charm and aesthetic of the Emirati capital. The result is a space where the house's relaxed, authentic atmosphere harmonizes with the stylistic codes and visual identity of Abu Dhabi.
